

April 2022

Position – HVAC Service Technician, Buffalo, NY

We are looking for an HVAC Service/Startup Technician to join our team! You will startup, service, and repair heating and air conditioning systems.

Responsibilities to included but not limited to:

- Startup and commissioning of new heating, ventilation, and air conditioning systems
- Field support for sales team
- Field and phone support for installing contractors
- Inspect and perform equipment repairs and parts replacement
- Provide warranty repairs of new factory equipment
- Uses a variety of hand tools, following blueprints, wiring diagrams, piping schemes or engineering specifications, to diagnose and repair units
- Prepares for on-site installation and repairs by examining building layout, anticipating difficulties, gathering materials and coordinating on-site work, as necessary.
- Documentation of equipment and job site conditions
- Maintains vehicles by keeping records of service manuals, scheduling and completing repairs and maintenance service
- Adhere to all safety policies and procedures
- Operating knowledge of Microsoft Office software and working proficiency with a tablet and phone to receive daily work assignments
- Flexibility to work overtime/weekends, as needed. Very rare

Qualifications:

- Previous experience in HVAC or other related fields; experience with industrial and commercial HVAC equipment a plus
- Familiarity with HVAC wiring diagrams
- VFD experience a plus
- DDC background/knowledge
- Valid Driver's License
- EPA 608 certified
- Ability to handle physical workload
- Strong problem solving and critical thinking skills

Training will be ongoing and is required in order to succeed. EBS will provide both informal and formal training.

About Engineered Building Systems: EBS is a manufacturer's representative specializing in the design and application of HVAC systems for commercial and industrial buildings. Whether

renovating an existing building or beginning a new construction project, EBS is the source for engineers, contractors and building owners to turn to for professional assistance. EBS is able to provide a complete "engineered building system" for hospitals, universities, office buildings, distribution warehouses, and many other commercial and industrial facilities. EBS currently operates eight offices across Pennsylvania, New York, and West Virginia.

Other information:
